JESSE WHITE

ILLINOIS SECRETARY OF STATE

www.cyberdriveillinois.com

It is a privilege to offer Illinois vehicle owners the opportunity to support our state parks and natural wildlife habitats by purchasing Environmental License Plates.

The red, white and blue Environmental Plates — or "E" Plates — feature our state bird, the cardinal, and our state prairie grass, big bluestem. The sale of each set of plates generates \$25 for the Illinois Department of Natural Resources' State Park Trust Fund, which is used to maintain and preserve state parks throughout Illinois. By renewing your "E" Plates annually, you will continue to support state parks, with a portion of the fee going to the fund.

I encourage you to take advantage of this unique opportunity to display these attractive plates and show your support for the preservation of our state's natural resources and recreational areas.

Sincerely,

Jesse White
